Precautions

- · As the laser beam used in the CD player section is harmful to the eyes, do not attempt to disassemble the casing. Refer servicing to qualified personnel only.
- Should any solid object or liquid fall into the player, unplug the player, and have it checked by qualified personnel before operating it any further.
- Discs with non-standard shapes (e.g., heart, square, star) cannot be played on this player. Attempting to do so may damage the player. Do not use such discs.

Cleaning the cabinet

. Clean the cabinet, panel and controls with a soft cloth slightly moistened with a mild detergent solution. Do not use any type of abrasive pad, scouring powder, or solvent, such as alcohol or benzine.

On power sources

- For AC operation, check that the player's operating voltage is identical with your local power supply (see "Specifications") and use the supplied mains lead; do not use any other type. The voltage selector is located at the bottom of the player (Saudi Arabian model only).
- · The player is not disconnected from the AC power source (mains) as long as it is connected to the wall outlet, even if the player itself has been turned off.
- For battery operation, use six R20 (size D)
- · When the batteries are not to be used, remove them to avoid damage that can be caused by battery leakage or corrosion.
- The nameplate indicating operating voltage, power consumption, etc. is located at the bottom

On placement

- Do not leave the player in a location near heat sources, or in a place subject to direct sunlight, excessive dust or mechanical
- Do not place the player on an inclined or unstable place.
- Do not place anything within 10 mm of the side of the cabinet. The ventilation holes must be unobstructed for the player to operate properly and prolong the life of
- If the player is left in a car parked in the sun, be sure to choose a location in the car where the player will not be subjected to the direct rays of the sun.
- Since a strong magnet is used for the speakers, keep personal credit cards using magnetic coding or spring-wound watches away from the player to prevent possible damage from the magnet.

On operation

- · If the player is brought directly from a cold to a warm location, or is placed in a very damp room, moisture may condense on the lenses inside the CD player section. Should this occur the player will not operate properly. In this case, remove the CD and wait about an hour for the moisture to evaporate.
- · If the player has not been used for a long time, set it in the playback mode to warm it up for a few minutes before inserting a

Notes on cassettes

· Break off the cassette tab from side A or B to prevent accidental recording. If you want to reuse the tape for recording, cover the broken tab with adhesive tape.

 The use of a cassette with more than 90 minutes of play time is not recommended except for long, continuous recording or

Notes on CDs

Before playing, clean the CD with a cleaning cloth. Wipe the CD from the center out.

- · Do not use solvents such as benzine. thinner, commercially available cleaners or anti-static spray intended for vinyl LPs. Do not expose the CD to direct sunlight or
- heat sources such as hot air ducts, nor leave it in a car parked in direct sunlight as there can be a considerable rise in temperature inside the car.
- · Do not stick paper or sticker on the CD. nor scratch the surface of the CD.
- · After playing, store the CD in its case. If there is a scratch, dirt or fingerprints on the CD, it may cause tracking error.

About CD-Rs/CD-RWs

- This player can play CD-Rs/CD-RWs recorded in the CD-DA format*, but playback capability may vary depending on the quality of the disc and the condition of the recording device.
- * CD-DA is the abbreviation for Compact Disc Digital Audio. It is a recording standard used for Audio CDs.

Music discs encoded with copyright protection technologies

This product is designed to play back discs that conform to the Compact Disc (CD) standard. Recently, various music discs encoded with copyright protection technologies are marketed by some record companies. Please be aware that among those discs, there are some that do not conform to the CD standard and may not be playable by this product.

If you have any questions or problems concerning your player, please consult your nearest Sony dealer.

Troubleshooting

- The power does not come on.
- · Make sure the batteries are inserted correctly · Replace all the batteries with new ones if they
- · You cannot turn on the player with the remote

when you operate the player on batteries. The power is not on, and "bAttErY" and "Error" are displayed alternately

· Make sure the batteries are inserted correctly. Replace all the batteries with new ones if they

There is no audio. Adjust the volume.

 Unplug the headphones when listening through speakers.

Noise is heard.

 Someone is using a portable telephone or other equipment that emits radio waves near the player. →Move the portable telephone, etc., away from the player.

CD Player

The CD does not play or "no dISC" lights in the display even when a CD is in place.

- . Place the CD with the label surface up. · Clean the CD.
- · Take out the CD and leave the CD compartment open for about an hour to dry
- The CD-R/CD-RW was not finalized. Finalize the CD-R/CD-RW with the recording device.
- . There is a problem with the quality of the CD-R/CD-RW, recording device or application
- Replace all the batteries with new ones if they

The sound drops out.

- Reduce the volume
- · Clean the CD, or replace it if the CD is badly · Place the player in a location free from
- · Clean the lens with a commercially available
- · The sound may drop out or noise may be
- heard when using poor quality CD-Rs/CD-RWs or if there is a problem with the recording device or application software.

Reception is poor.

Reorient the aerial to improve FM reception.

· Reorient the player itself to improve AM or MW/LW reception

The audio is weak or has poor quality. · Replace all the batteries with new ones if they

· Move the player away from the TV

The picture of your TV becomes unstable.

· If you are listening to an FM programme near the TV with an indoor aerial, move the player away from the TV.

press an operation button.

Close the cassette compartment securely.

The tape does not move when you

- The REC button does not function
- or the tape does not play or record. · Make sure the safety tab on the cassette is in

Poor or distorted playback, recording or erasing quality.

- · Clean the heads, pinch roller and capstan with a cleaning swab slightly moistened with cleaning fluid or alcohol.
- · Replace all the batteries with new ones if they TYPE II (high position) or TYPE IV (metal)
- · Demagnetize the heads using a commercially

- Make sure that you are pointing the remote at
- remote and the player.
- · Make sure the remote sensor is not exposed to strong light such as direct sunlight or luorescent lamp light.

After trying the above remedies, if you still have problems, unplug the mains lead and remove all Headphones jack (stereo minijack) the batteries. After all the indications in the For 16 - 68 Ω impedance headphon display disappear, plug the mains lead and insert please consult your nearest Sony dealer. 5.2 W

Location of controls

Falling asleep to music

1 Play the music source you want. 2 Press SLEEP to display "SLEEP."

To cancel the sleep function

→ "OFF" → "10" → "20" → "30"

Press OPERATE (or POWER) to turn off the power

When you are playing a tape using this function:

3 Press SLEEP to select the minutes until the player goes off automatically.

Each time you press the button, the indication changes as follows: " $60" \rightarrow "90" \rightarrow "120"$

If the tape length of one side is longer than the set time, the player will not go off until the tape reaches

To turn on/off the power

CFD-S550L: Press OPERATE CFD-S550: Press POWER.

To adjust the volume

Press VOL +, -

To listen through headphones

Connect the headphones to the () (headphones) jack.

Adjusting the sound emphasis

To Select the sound characteristic

Press one of the SOUND MODE buttons to select the audio emphasis you want. (On the remote, press SOUND repeatedly.)

| Press | To get |
|-------|--|
| ROCK | powerful, clean sounds, emphasizing low and high range audio |
| POP | light, bright sounds emphasizing high and middle range audio |
| JAZZ | percussive sounds, emphasizing bass audio |
| VOCAL | the presence of vocals, stressing middle range audio |
| FLAT | the whole dynamic range for music such as classical music |

To reinforce the bass sound

Press MEGA BASS

"MEGA BASS" appears in the display

To return to normal sound, press the button again.

To get the MEGA Xpand effect

Press MEGA Xpand.

"MEGA Xpand" appears in the display.

You can get the effect of expansion of the sound field.

To return to normal sound, press the button again.

Playing a CD

1 Press CD (direct power-on).

(On the remote, press OPERATE (or POWER) and then press FUNCTION repeatedly until "Cd" appears in the display.)

- **2** Load a CD in the CD compartment.
- 3 Press ♣ PUSH OPEN/CLOSE to close the CD compartment.
- **4** Press ►II (► on the remote).

The player plays all the tracks once

| То | Press |
|-----------------------------------|---|
| stop playback | 1 |
| pause playback | ►II (II on the remote) |
| | Press the button again to resume play after pause. |
| go to the next track | ▶ |
| go back to the previous track | H44 |

| locate a point while observing | ►► (forward) or ► (backward) in pause until you find |
| the display | the point |

You cannot locate a specific track if "SHUF" or "PGM" is lit in the display. Turn off the indication by

To locate a track numbered over 10, press >10 first, then the corresponding number buttons. Example:To play track number 23, press >10 first, then 2 and 3.

Using the display

To check the total track number and playing time

Press DISPLAY•ENT•MEMORY in stop mode (see fig. **E**).

To check the remaining time

Press DISPLAY•ENT•MEMORY repeatedly while playing a CD. The display changes as

- the current track number and playing time
- the current track number and the remaining time on the current track*
- the number of tracks left and remaining time on the CD

* For a track whose number is more than 20, the remaining time appears as "- -:- -" in the display.

Selecting the play mode

Press MODE until "REP 1" "REP ALL" "SHUF" "SHUF REP" "PGM" "PGM REP" appears in the display. Then proceed as follows:

| 10 | Select | i nen ao this |
|--------------------------|------------|--|
| repeat a single track | "REP 1" | Press the number button for the track you want to |
| | | repeat. |
| repeat all tracks | "REP ALL" | Press ►II. |
| shuffle play | "SHUF" | Press ►II. |
| repeat tracks | "SHUF REP" | Press ►II. |
| in random order | | |
| programme play | "PGM" | Press the number buttons for the tracks you want |
| | | to programme in the order you want up to 20 |
| | | tracks (see fig. □). Then press □ II. |
| repeat programmed tracks | "PGM REP" | Press the number buttons for the tracks you want |
| | | to programme in the order you want up to 20 |
| | | tracks. Then Press ►II. |
| | | |

To cancel selected play mode

Press MODE until the selected mode disappears from the display

To check the programmed track and playing order in the display To check the order of tracks before play, press DISPLAY•ENT•MEMORY

Every time you press the button, the track number appears in the programmed order.

To change the current programme

Press ■ once if the CD is stopped and twice if the CD is playing. The current programme will be erased. Then create a new programme following the programming procedure.

You can record your own programme. After you've created the programme, insert a blank tape and press

to start recording.

Listening to the radio

1 Press RADIO BAND•AUTO PRESET until the band you want appears in the display (direct power-on)

Each time you press the button, the indication changes as follows: CFD-S550: "FM" → "AM"

CFD-S550L: "FM" \rightarrow "MW" \rightarrow "LW"

2 Hold down TUNE + or – until the frequency digits begin to change in the

The player automatically scans the radio frequencies and stops when it finds a clear station.

If you can't tune in a station, press the button repeatedly to change the frequency

step by step.

If the FM broadcast is noisy, press MODE until "Mono" appears in the display and the radio will play in

Changing the AM/MW tuning interval

The AM/MW tuning interval is preset to 9 kHz at the factory.

If you need to change the AM/MW tuning interval, do the following:

1 While keeping the RADIO BAND•AUTO PRESET button and ■ button pressed, disconnect the mains lead from the mains 2 While keeping the RADIO BAND•AUTO PRESET button and ■ button pressed,

reconnect the mains lead to the mains. The tuning interval is changed and "AM 9" "MW 9" or "AM 10" "MW 10" appears in the display for 2 seconds.

After changing the tuning interval, you need to reset your preset radio stations.

Presetting radio stations

You can store radio stations into the player's memory. You can preset up to 30 radio stations (CFD-S550), 20 for FM and 10 for AM in any order, or 40 radio stations (CFD-S550L), 20 for FM and 10 for MW and LW in any order

- 1 Press RADIO BAND•AUTO PRESET to select the band.
- 2 Hold down RADIO BAND•AUTO PRESET for 2 seconds until "AUTO" flashes in the display.
- **3** Press DISPLAY•ENT•MEMORY.

The stations are stored in memory from the lower frequencies to the higher ones.

If a station cannot be preset automatically

You need to preset a station with a weak signal manually

- 1 Press RADIO BAND•AUTO PRESET to select the band.
- 2 Tune in a station you want.
- **3** Hold down the number buttons that you want to preset the new station on for about 2 seconds. To select the preset number over 10, press >10 first, then the corresponding number buttons. You need to hold down the last number button to enter for about 2 seconds. (Example: To select 12, press >10 and 1 first, then hold down 2 for about 2 seconds.)

The preset radio stations remain in memory even if you unplug the mains lead or remove the batteries.

Playing preset radio stations

- 1 Press RADIO BAND•AUTO PRESET to select the band.
- **2** Press the number buttons to tune in the stored station.

To tune in a preset station over 10, press >10 first, then corresponding number

(Example: To tune in a preset station 12, press >10 and 1 first, and then press 2.)

Playing a tape

1 Press TAPE (direct power-on).

(On the remote, press OPERATE (or POWER) and then press FUNCTION repeatedly until "TAPE" appears in the display.)

2 Press ■ to open the tape compartment and insert a recorded tape. Close the compartment. Use TYPE I (normal) tape only.

3 Press **⋖**.

| То | Press |
|---------------------------------|--|
| stop playback | |
| fast-forward or rewind the tape | ◄ or ▶▶ |
| pause playback | II |
| | Press the button again to resume play after pause. |
| eiect the cassette | T ≜ |

Recording

1 Press ■ to open the tape compartment and insert a blank tape. Use TYPE I (normal) tape only.

2 Select the programme source you want to record.

To record from the CD player

Press CD and insert a CD (See "Playing a CD").

To record from the radio

Press RADIO BAND•AUTO PRESET and tune in the station you want (See "Listening to the radio").

3 Press ● to start recording.

(**◄** is depressed automatically.)

| То | Press |
|-----------------|---|
| stop recording | |
| pause recording | II |
| | Press the button again to resume recording. |

Adjusting the volume or the audio emphasis will not affect the recording level.
